Music for Romantic Souls

n Thursday, September 24, *WisePhilou* invites you to a peaceful lakeside room for an evening inspired by the magic of cinema.

The setting has a story of its own. WisePhilou originally created it for someone very dear to his heart, pouring considerable care into building a quiet and romantic refuge. When their paths eventually separated, he was left with a beautiful room in search of a new purpose. Inspired by the warm atmospheres he encountered at other events in 3DX, he created a nighttime version where others could meet, relax, and share special moments.

Music is central to the room's identity. Daytime visits are usually accompanied by classical works and plenty of piano, while evenings lean toward jazz, vocal jazz, and the intimate ambience of a piano bar. For this first special event, WisePhilou has selected some of cinema's most beautiful and moving soundtracks. Expect a gentle concert created to stir hearts and touch souls.

These themed evenings will be rare occasions rather than weekly fixtures, with just one or two more planned before the end of the year. Come discover this tranquil setting. Slow down for a while. Allow the music, and perhaps the company, to work its magic.
