Mount Olympus

In an homage to the mythology of her country, [Alikiinchains](https://thehiddencircle.com/lockdown-builds/)¹ has created a rendition of [Mount Olympus](https://simple.wikipedia.org/wiki/Olympus)², home to the ancient gods of Greece. While Mount Olympus is an existing mountain and one of the highest in Europe, this build focusses on the imaginary [acropolis](https://en.wikipedia.org/wiki/Acropolis)³ of the gods that was believed to be located just below the peaks.
