Spaceship

BY CURT ROSEWOOD — 2024-06-13

Spaceship Freedom

Spaceship *Freedom* was designed by *Lory Grau* as an outer space hideaway for three friends. The friends are symbolised by the three triangles motif that appears in several places throughout the ship. The transparent hull and milky way background provide ample opportunity for some unique spacey pictures. And for a romantic moment there is the zero gravity bed in the observation dome.
