Summer Venue

The club uses different venues for summer and winter. The summer venue is a place that allows people to breathe and enjoy an outdoors environment. The inspiration came from [The House of Blues](https://en.wikipedia.org/wiki/House_of_Blues)¹, augmented with ideas brought on by *Alan*. The location was an instant success and is packed with people week after week.

Winter Venue

The Blue Note is an actual blues² club in New York City and inspired the build of the original venue, now used during the winter months from September onwards.

It was not the first club *MellowDy* built. Her original room was based on the Bowery Ballroom³ but was used only once for a memorable event with real musicians playing personal compositions and covers. Afterwards, *MellowDy* remodelled the ballroom into a blues club and so the *Blue Note* was born.

Quickly, it was decided to have guest DJs every week and so joined *TequilaRose*, *Pepsijones*, *RebelGirl* and *Alan*. Occasionally *MellowDy* also graciously offers her own set to another DJ looking for an opportunity to play.
